

Client PMP Limited
Details New office fitout
Area 4,500sqm
Completion July 2005

PMP Limited's new Head Office at Freshwater Place enhances the media service provider's image as a dynamic and vibrant, successful and customer-focused organisation.

The reception area creates an immediate impact with its two-storey feature wall and staircase. Designed in conjunction with emerystudio, the feature wall provides a visual representation of PMP's approach: producing order from chaos to create targeted and streamlined communications.

The ever-changing play of light across the surface of the wall marks the passage of time, making this space ideal for a range of uses from large scale pitches and cocktail parties in the evening, to small scale meetings and training sessions during office hours.

The office boasts a series of dynamic workspaces – such as project rooms, quiet rooms, touchdown spaces and meeting rooms – that offer flexibility now and the opportunity to evolve as workplace needs change in future.
