

Client Pyramid Pacific
Details Fitout for project management company
Area 200sqm
Completion 2003

Pyramid Pacific is a medium sized project management office firm. The brief was to create an office environment that was both professional and contemporary. Five yellow walls set up an ordered rhythm, breaking the space into working zones. These working spaces are flanked by a long communal table that offers an alternative meeting area. Glass doors beside reception lead to the boardroom and adjacent studio space. Slatted feature walls and cabinetry designate the common areas, providing texture to an otherwise minimal environment.
