

**Client** Clayton Utz

**Details** Law firm corporate fitout

**Area** 12,000sqm

**Completion** 1992, expansion and refurbishment 2004

Awarded following a limited design competition, this prestigious legal fitout was developed by adapting similar designs undertaken in Melbourne for the Sydney legal market. The high cost of Sydney CBD office space required the planning to be extremely efficient without compromising the appearance of a leading firm of solicitors. The fitout comprised professional floors designed for effective communication with sophisticated meeting and videoconference facilities, a large law library, staff training and administrative support. A fresh but classical approach was used to reflect Clayton Utz' position as a long established Sydney practice. In 2004, expansion of the firm required a refurbished reception and client meeting room floor, three additional legal/administration floors and upgrade of nine existing legal floors.

**Top and bottom right** Reception with interconnecting stair

**Bottom left** Waiting area
